A snapshot of

Flexi Debit Visa

Freedom to shop online, over the phone and overseas

Flexi Debit Visa gives you easy access to your money just like an EFTPOS card, plus it lets you buy things online, over the phone and by mail-order as if it were a credit card. And when travelling overseas, you can use it to get cash at ATMs and spend money from your everyday accounts wherever Visa is accepted.¹

Manage your money without the worry

Because Flexi Debit Visa lets you spend directly from your everyday accounts, you'll have the freedom to shop where and how you choose without worrying about credit card bills.

Security is updated every time you use your card at a BNZ ATM

BNZ cards include a range of security features to help keep your card safe when you pay for things online and over the counter. And whenever you use your Flexi Debit Visa card at a BNZ ATM for cash withdrawals, mini statements and balance enquiries, we automatically change the security information on your card. Clever huh? This helps prevent skimming (where your card details are fraudulently scanned and used without your knowledge), so that's one less thing to worry about.

A low annual card fee² and great Visa benefits

For a low annual card fee you get all the benefits of a Flexi Debit Visa card, including access to great Visa benefits such as emergency travel assistance and exclusive entertainment offers from visaentertainment.co.nz
